

2017-18 Federation Appointments to Boards And Committees

The Saskatchewan Teachers' Federation has established several boards and committees that delve into matters of importance to the teaching profession. Each year the composition of these boards and committees is considered and the STF Executive appoints members as necessary, and in some cases members are appointed to boards of educational partners as requested.

The Federation would like to take this opportunity to thank the board and committee members who served in 2017-18. Their dedication and service is greatly appreciated.
