**Participatory action research : theory and methods for engaged inquiry** / Chevalier, Jacques M. Buckles, Daniel.

027.8 S983
**Conducting action research to evaluate your school library** / Sykes, Judith A.
*Notes:* The author brings together current expert opinions on the topic of action research in the school library environment and highlights what other teacher librarians in the field have identified as the pros and cons of using the process.  Readers are directed to focus on mitigating the cons through the use of specific working pages and templates and by initially exploring five favourite links, thereby encouraging those who are new to action research to try what might otherwise seem a daunting process.

Schoolwide action research for professional learning communities : improving student learning through the Whole-Faculty Study Groups approach / Clauset, Karl H. Lick, Dale W. Murphy, Carlene U.
Subjects: Action research in education. School improvement programs.
Summary: The Whole-Faculty Study Group (WFSG) model is a type of professional learning community that catalyzes school change with school-wide action research as a central component. With over 20 years of experience, the authors draw from hundreds of examples and case studies to describe how implementing WFSGs can help students, teachers, administrators, and other staff members work collaboratively to improve teacher practice and student learning. The authors' empirical data and comprehensive approach help deepen educators' understanding of how to use meaningful action research to strengthen teamwork and realize school reform. Additionally, readers will learn how: the WFSG system compares with other approaches to action research; the schoolwide action research process can be applied in a wide variety of school reform efforts; study groups can move from discussion to action; and principals and district leaders can support school-wide action research.

370.78 D637 2008
Summary: The purpose of this study was to document upper elementary and high school students' understandings of their own literacy practices and their perceptions of opportunities to become engaged in literacy at home and school. Involving students in conversations about literacy learning helped us as teachers in this study to explore creative and innovative ways of encouraging students to describe their literacy practices, engagement and opportunities to learn, and to use literacy in various contexts.
Exploring Cognitive Strategy Instruction (CSI), Schema-Based Instruction (SBI) and Strategic Content Learning (SCL) with students with learning and developmental disabilities in higher-order mathematics: two interrelated action research projects / Dalzeil, Kelly Howell. Grismer, Lara. Thompson, Scott. Saskatoon, SK: Dr. Stirling McDowell Foundation, 2008.

Summary: The purpose of this study was to explore the use of new strategies with students with learning challenges in higher-order mathematical problems. Specifically, we applied these strategies in two local classrooms: a high school math classroom specifically for students with learning disabilities and a mainstream elementary school classroom that contained some students with special needs. We found these strategies to be very successful in both classrooms.

Healthy Souls: our journey towards a health promoting high school / Humbert, Louise. Kirkpatrick, Dwight. Sulz, Lauren. Evan Hardy Collegiate. Healthy Souls Team (Saskatoon, Sask.). Saskatoon, SK: Dr. Stirling McDowell Foundation, 2008.

Summary: The purpose of this study was to examine the processes and resources needed to create a health promoting high school. The voices of high school students, through the use of a survey and a school based health committee, provided insight into the needs of high school students and also the motivation and guidance to make health enhancing opportunities and choices available for students.

A school-based study on the relationship between increased literacy levels and school attachment / McEachern, Shaun. Saskatoon, SK: Dr. Stirling McDowell Foundation, 2008.

Summary: In the fall of 2005 staff and parents referred students for the newly created Literacy 10/20 courses that were being offered at Mount Royal Collegiate. After two semesters the students were post-tested using the Grey Oral Reading Test to see if any growth had occurred in the areas of fluency, comprehension and accuracy. After analyzing these scores, they then decided to research and analyze how these improved literacy scores could affect the attachment of these students to their school.

Circles of inquiry : creating a culture of inquiry to enhance early learning / Epp, Margaret. Lemisko, Lynn. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2008.
Notes: Inquiry team: Heather Baergen, Heather Grismer, Mary Loewen, Samantha Mirwald, Patricia Peech, Jacquie Thiessen and Susan Westmacott. The research objective was to understand how a school-based professional learning community could develop a "culture of inquiry" to support and enhance learning for PreK to grade 3 students. Participants in this study included five PreK to Grade 3 classroom teachers who were collaborating in a pre-formed professional learning community (PLC) within a small rural school. Two division office personnel, and two research leaders joined in the monthly circle of inquiry discussions.
Youth yoga : starting off on the right foot - engaging the active and under focused learner / Kinakin, Chantelle. Lockinger, Michelle.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2009.
Summary: During a three-month period at Venture Heights School in Martensville, Saskatchewan, two teachers implemented a daily physical activity session called Fit Fifteen into their classroom routine. The Fit Fifteen involved the development of student-led, yoga-based activities. The teachers researched the impact of the physical activity session on their classroom and drew conclusions about the importance of physical education in the classroom.

Saskatoon, SK : Dr. Stirling McDowell Foundation, 2009.
Summary: The focus of the research was a review of the literature on family literacy in Saskatchewan and elsewhere, and an inventory and analysis of family literacy programs in Saskatchewan.

Grouping students to support student attachment to school at Marion M. Graham Collegiate / Clark, Rick. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2009.
Notes: Other researchers: Myra Comrie, Murray Guest, Suzanne Zwarych.
Summary: At Marion M. Graham Collegiate in Saskatoon, it has long been the practice to group students in their grade 9 year into at least three classes together. The question was asked. "How valuable is it for students to spend three hours with the same students and same teacher in their grade nine year?" The measurement construct selected was 'student attachment to school' because it encompassed achievement, belongingness, self esteem, friendships, and student-teacher relationships.

**The relationship between the assessment process and children's and teachers' knowledge and identity in mathematics /** Clarke, Cindy. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2010.
Summary: Over the past three years, the research team examined the relationship between assessment, knowledge and identity in mathematics for both children and teachers. They used Grayson Wheatley's Primary Assessment tool as the means to uncover the students' mathematical understanding and their mathematical identity. The underlying qualitative methodology for this research was narrative inquiry.
Using digital narratives with refugee and immigrant youth to promote literacy, healing, and hope / Geres, Koreen.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2010.
Summary: The focus of this participatory action research study was to explore the use of digital storytelling with immigrant and refugee youth. This research explored the experiences of immigrant and refugee youths moving to Canada with a specific focus on their educational experiences and needs. The study was facilitated in a secondary school, beginner level English as an additional language (EAL) classroom in Saskatoon, Saskatchewan over one, five-month semester.

Web 2.0 to go! : study in technology integration to improve student engagement / Aspinall, Devin. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2011.
Notes: Other teacher researchers: Dana Hamilton, Marnie McKinnon, Michelle Smart, and Angela Smeltzer. Research question: Can we improve student engagement with the grades 5-8 social studies curriculum by using web 2.0 tools and technology?

Journeying toward student success for immigrant students in French immersion / Alberton, Barbara. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2011.
Notes: Other teacher researchers: Belinda Bellegarde, Jodi Campeau, Tanys Gareau, Marielle Hamon, Gisle Jean-Bundgaard, Colleen Lukan, Dianne Marsh, Linda Parent, Louise Robert, Chad Sawatzky, Ronald Sirois. With an increasing number of immigrants enrolled in French immersion and with a shortage of literature regarding immigrants in French immersion, the research team wanted to establish a collective understanding of teaching English language learners (ELLs) by reading common resources on the topic of English as an additional language (EAL) and by inviting local experts to broaden our horizons regarding immigrants in the school system. They also wanted to establish a sense of direction by experimenting with instructional strategies designed for ELLs and to report back to the team on how they worked in a French immersion setting.

Professional development on individuals engaged in pre-service teacher education within a rural setting : phase II / Gavel, Milissa. et al.
Saskatoon, SK : Dr. Stirling McDowell Foundation, 2012.
Subjects: Teachers--In-service training--Saskatchewan. Teachers--Training of--Saskatchewan. Action research in education--Saskatchewan.
Notes: Other researchers: Ann Kipling Brown, Lisa Lenkart, Norman Yakel. The study addressed whether the teachers found the preparation in a proposed seminar equipped them for their supervisory role and whether they saw this role as an important component of their professional contribution to education. The study considered the distinction between the 2009 and 2010 experiences relating to their perceptions and understandings of the co-operating teachers’ supervisory role. Additionally, the pre-service teachers and university professors considered the significance of the professional development process and the intensive week in the schools.

Notes: Published on November 5, 2013. A study was conducted to determine the inputs, processes, and outcomes of teacher induction and professional development in an inquiry-based school. Qualitative data collected through interviews, focus groups, video, picture, and work sample artifacts (analyzed using descriptive and structural coding) revealed important inputs including the student-centered learning environment, prioritized teacher learning, and dissonance; processes of continued teacher dissonance, changed student dispositions, and student engagement; and outputs such as deepened engagement (student, teacher, and parent) as well as authentic student learning and metacognition. Implications include using the professional development school model as valuable professional development on a wider scale.
