Year-End Update

As the school year ends, there is very little new information to report about the ongoing arbitration process related to the current Provincial Collective Bargaining Agreement.

The Teachers' Bargaining Committee and the Government-Trustee Bargaining Committee have each delivered a series of written submissions to the arbitration panel. Both sides will participate in the arbitration hearings in the summer. The decision of the arbitration panel is expected in September. The decision of the arbitration panel is final and binding.

The Teachers' Bargaining Committee and Saskatchewan Teachers' Federation staff will continue to work hard on your behalf throughout the summer.

Both sides have agreed not to publicly share detailed information about the arbitration process. Members are reminded to not discuss any aspects of collective bargaining on social media. The discussion forum on the MySTF section of the Federation website provides a secure platform for discussions with colleagues and STF staff.
