

Free Membership Offer for Beginning Teachers

The Saskatchewan Teachers' Federation supports professional growth networks, and this affiliation provides members with publications, networking and other professional growth opportunities.

Professional growth networks have been established in a variety of subject fields, service areas and interdisciplinary groups. The general purpose of professional growth networks is to support professional growth and lifelong learning of their members.

The success of each professional growth network is measured by teacher interest in becoming members and taking an active role in the work of the networks. Membership is not limited to teachers, but includes any person with a professional interest in the activities of the networks.

Several professional growth networks offer beginning teachers a free one-year membership. Complete the voucher below to receive a membership to the professional growth network of your choice. Please see reverse side of this page for a list of networks.
