005.133 K39
Keranen, Rachel
The power of Ruby
Summary: This book describes the history of the language, the relationship between Ruby and Ruby on Rails, and why Ruby is an ideal first language for new programmers, complete with tips on how readers can get started.

006.7 M978
Murphy, Grace
The power of PHP
Subjects: Computer programming. PHP (Computer program language).
Summary: When PHP was first developed, its name stood for "Personal Home Page Tools." Today, PHP 5 has come a long way from that original suite of tools. However, PHP is still known for its myriad uses for developing websites; in fact, WordPress was written in PHP. This book explains why it's a great language for beginners, discusses its many applications, includes sample code, and describes the strengths and weaknesses of each iteration of PHP.

025.1 H838
Hough, Brenda
Crash course in time management for library staff
Subjects: Library employees—Time management.
Summary: This book offers time management tools, tips, and techniques for busy librarians, so they can better serve their communities and gain greater satisfaction from work and life.

Jacobs, Brittany R.
Transforming your library into a learning playground: a practical guide for public librarians
Summary: Public libraries need to offer relevant, exciting, and stimulating learning centres that appeal to kids. This book is a step-by-step guide for creating affordable and effective educational programs for children and youth by focusing on one simple concept: play.

028 R823
Ross, Catherine Sheldrick; McKechnie, Lynne
Reading still matters: what the research reveals about reading, libraries, and community

*Summary*: Drawing on scholarly research findings, this book presents a cogent case that librarians can use to work towards prioritization of reading in libraries and in schools.

155.413 S671
Snel, Eline

**Sitting still like a frog : mindfulness exercises for kids (and their parents)**

*Summary*: This little book is a very appealing introduction to mindfulness meditation for children and their parents. In a simple and accessible way, it describes what mindfulness is and how mindfulness-based practices can help children calm down, become more focused, fall asleep more easily, alleviate worry, manage anger, and generally become more patient and aware. The book contains eleven practices that focus on just these scenarios, along with short examples and anecdotes throughout. Included with purchase is an audio CD with guided meditations, voiced by Myla Kabat-Zinn, who along with her husband, Jon Kabat-Zinn, popularized mindfulness-based stress reduction (MBSR) as a therapeutic approach.

155.937 J83
Jose, Stephanie

**Progressing through grief : guided exercises to understand your emotions and recover from loss**

*Summary*: Grieving is a highly personal experience and reactions differ from person to person. Feelings of loss are arguably the most unique, confusing feelings with which to cope. This book offers compassionate coping methods and practical tools toward healing.

155.927 L917
Lowenstein, Liana

**Creative interventions for bereaved children**

*Summary*: This book provides grief counselors with creative interventions to engage, assess, and treat bereaved children and families. A range of innovative activities are presented, including therapeutic games, art, puppets, role-plays, and stories.

201.4 O36

**Oh my God! Series 1, part 5, Atheism [DVD]**
Toronto, ON: Stornoway Productions, 2016.

Summary: Could the best kind of belief possibly be no belief at all? Host Tevya decides to check out atheism. As the program begins, he finds himself in a graveyard, where he is visited by an important insight: 'Being dead sucks!' Later in the program, he meets the president of Canada's Freethought Association, which stirs up a little controversy with its provocative ad slogan: 'There's probably no God. So stop worrying and enjoy life.' Finally, he finds himself immersed in God.

268.433 L989
Lynn, David
High school talksheets on the New Testament : 52 ready-to-use discussions
Summary: This resource contains reproducible talksheets that may be used as discussion-starters or as enrichment for topics in the curriculum. The stories highlight Biblical principles using examples from the New Testament such as: Christ's miracles, the Pharisee and the tax collector, the Good Samaritan, Zacchaeus, Mary and Martha and Paul and Silas.

282.092 S971
Swaim, Colleen
Radiate : more stories of daring teen saints
Summary: This resource tells the stories of teens from around the world who lived their faith and responded to the call to live lives of holiness. Each story is followed by questions to help readers apply what they have read to their own lives. Text boxes highlight new vocabulary and provide additional facts about the saints.

289.95 O36
Oh my God! Series 1, part 6, Evangelical Christianity [DVD]
Toronto, ON: Stornoway Productions, 2016.
Summary: While many mainline Christian churches are in decline, Evangelical Christianity remains a powerful force in the 21st century. With two point one billion followers worldwide, this particular branch of faith must be doing something right. In this program, host Tevya enters the world of Evangelicals, meeting a local pastor whose weekly service is broadcast to five different locations and features a full rockband. He learns that it is all about giving back.

294.3 O36
Oh my God! Series 2, part 1, Buddhism [DVD]
Toronto, ON: Stornoway Productions, 2016.
Summary: With more than 300 million followers worldwide, Buddhists follow a path towards enlightenment in what is as much a religion, as it is a way of life. A Buddhist Monk attempts to quiet host Tevya's mind, but first, a celebration. It's Buddha's birthday and Tevya is in for a food-fight while meeting 'The Holy Ghosts.'

294.5 O36
Oh my God! Series 1, part 1, Hinduism [DVD]
Toronto, ON: Stornoway Productions, 2016.
Summary: Host Tevya begins his spiritual quest by investigating Hinduism, a faith with some 900 million followers worldwide. He attends the Durga Puga festival, an annual celebration for the Hindu goddess Durga with his teen guide Kritika. Tevya explores Little India searching for a present for the goddess and learns a little Kathak dancing with Kritika along the way.

294.6 O36
Oh my God! Series 2, part 5, Sikhism revealed [DVD]
Toronto, ON: Stornoway Productions, 2016.
Summary: From turbans to ceremonial daggers (kirpans), the symbols and practices of Sikhism are revealed to host Tevya in this program. At the birthday celebration for Guru Nanak, the fifteenth-century founder of the faith, Tevya learns how and why Sikh's pray, how they cook 'vegetarian' for the masses, and why Sikh's consider warriors 'Saintly.' The fight for the poor is a holy calling as Tevya discovers.

297 A398
Ali-Karamali, Sumbul
Growing up Muslim: understanding the beliefs and practices of Islam
Subjects: Islam—Juvenile literature.
Summary: This is a comprehensive introduction to one of the world's major religions and its everyday context in Muslim life in America.

297 E36
Ejaz, Khadija
My friend is Muslim
Summary: Layla Reed is only twelve years old, but she has a big project ahead of her. Her teacher has asked her to speak to her seventh grade class about Islam. Layla's best friend, Nancy Winters, is going to help her with the project, and she's going to learn a lot about her friend's religion along the way. Who was Muhammad? What exactly is in the Quran? What is jihaaad? Islam is only 1,500 years old, but Muslims believe its message is older than Creation itself.
Layla's family is busy fasting for the holy month of Ramadan, and the festival of Eid Al-Fitr is only a week away. Will she and Nancy be ready?

297.362 K45
Khan, Ausma Zehanat
**Ramadan : the holy month of fasting**
*Summary:* Throughout the month of Ramadan, Muslims fast during the day and break the fast together as a family each night. Ramadan provides the opportunity to focus on positive thoughts and actions. It is a time to become more grateful for the blessings people often take for granted and be reminded of the importance of helping others.

297.362 M687
Mobin-Uddin, Asma
**A party in Ramadan**
*Summary:* This book uses the story of Leena, an American Muslim girl who attends a friend's birthday party, but does not eat or drink because it takes place during Ramadan, to illustrate the meaning of the fast to Muslims, and provides additional information.

300.721 C923
Creswell, John W.; Creswell, J. David
**Research design : qualitative, quantitative, and mixed method approaches**
*Summary:* This bestselling text pioneered the comparison of qualitative, quantitative, and mixed methods research design. For all three approaches, the authors include a preliminary consideration of philosophical assumptions; key elements of the research process; a review of the literature; an assessment of the use of theory in research applications, and reflections about the importance of writing and ethics in scholarly inquiry.

302.2 M583
Messaris, Paul
**Visual communication. Images of advertising and propaganda [DVD]**

302.343 B938
**The bully report [DVD]**
Summary: This DVD is an educational feature on the importance of standing up to and speaking out against bullying.

305.2351 J61
Jivani, Jamil
Why young men : rage, race and the crisis of identity
Summary: This book is not a memoir, but a collection of ideas that pursues a positive path and offers a counterintuitive, often provocative argument for a sea change in the way we look at young men, and for how they see themselves.

306.768 M995
My transgender life. Paul wears dresses : what it's like to be transgender and transition to a different sex [DVD]
Place of publication: TMW Media Group, 2016.
Summary: It follows the struggles of Stefonknee Wolscht, a trans woman trying to rebuild her life. Losing her home and her family, Stefonknee gives a first hand account of the many challenges trans people face. In her hometown, Stefonknee was known as a loving husband and father, a really good mechanic and a staunch Catholic, but only she knew the truth: that she had been assigned to the wrong gender when she was born.

342.710872 J83
Jospeh, Robert P. C.
21 things you may not know about the Indian Act : helping Canadians make reconciliation with Indigenous Peoples a reality
Summary: A guide to understanding the Indian Act and its impact on generations of Indigenous Peoples, as well as an examination of how Indigenous Peoples can return to self-government, self-determination, and self-reliance.

342.710872 T784
Treaties and the treaty relationship
Summary: The goal of this special issue of Canada's History magazine is to try to provide a more balanced understanding of Treaties and the Treaty relationship.
359.0092 W214
Wallmark, Laurie
**Grace Hopper: queen of computer code**
*Summary*: Grace Hopper coined the term “computer bug” and taught computers to “speak English.” Throughout her life, Hopper succeeded in doing what no one had ever done before. Delighting in difficult ideas and in defying expectations, the insatiably curious Hopper truly was “Amazing Grace” . . . and a role model for science- and math-minded girls and boys. With a wealth of witty quotes, and richly detailed illustrations, this book brings Hopper's incredible accomplishments to life.

363.728 F999
Fyvie, Erica
**Trash revolution: breaking the waste cycle**
*Summary*: Using the typical contents of a child's school backpack (defined as water, food, clothing, paper, plastic, metals, and electronics), this book explores ways to reduce, reuse or recycle waste. Children will gain new insight into the routine decisions they make about their own consuming, trashing or recycling practices.

370 P923
Jagodzinski, Jan (Ed.)
**The precarious future of education: risk and uncertainty in ecology, curriculum, learning, and technology**
*Summary*: This volume examines the challenges weighing on the future of education in the face of globalization in the twenty-first century. Bringing together eleven authors who explore the paradox of an “after” to the future of education, each chapter in this book targets three important areas: ecology as understood in the broader framework of globalization and pedagogy; curriculum concerns which impact learning; and the pervasiveness of technology in education today.

370.72 C187
Campbell, Carol; Clinton, Jean
**Ontario: a learning province**
Summary: The conclusion of this report is that there is a further need to develop a culture of assessment with a coherent strategy, updated policies, supports for implementation, and continuous review. We identify four key areas for improvement.

370.72 M647
Miller, Angie
It’s a matter of fact: teaching students research skills in today’s information-packed world
Summary: In this book, the author demonstrates how you can turn your students into informed citizens by teaching them how to research effectively. In today’s information-saturated world, research skills have moved beyond fact-finding, into fact-sifting, fact-sorting, and fact-assessing. Miller shows you how to help students check sources, take good notes, make use of information, and synthesize and present information across the subject areas. She also shows how to make research a daily practice, not a one-time essay or project. With examples and online handouts you can use immediately, this practical book is a valuable resource for educators seeking to engage students in their work and encourage them toward higher level thinking.

370.72 N738
Njie, Adela; Shea, Sarah
Students first, final report: inclusive education that supports teaching, learning, and the success of all Nova Scotia students
Summary: This final report of the Commission on Inclusive Education is the culmination of a year of study, research, public consultation, and ongoing dialogue with Nova Scotians. The commission was tasked with improving inclusive education for the benefit of all Nova Scotia students. We have done that by putting students first. Printed from the internet.

371.007 S755
Spier, Elizabeth; Garibaldi, Mark
Alaskan schools. What matters to students?: listening to the voices of engaged and disengaged Alaska Native and non-Native students
Summary: Printed from the internet.

371.207 D587
Dintersmith, Ted
What school could be: insight and inspiration from teachers across America
Summary: The author offers an inspiring vision of what teachers and students can accomplish if trusted with the challenge of developing the skills and ways of thinking needed to thrive in a world of dizzying technological change.

371.207 W679
Wiliam, Dylan
Creating the schools our children need: why we're doing now won't help much, and what we can do instead
Summary: In this book, the author breaks down the methods American schools use to improve, and the gaps between what research tells us works and what we actually do. He analyzes the three real, implementable improvements that are proven to be factors in school success: building a curriculum focused on developing knowledge, supporting a culture where every teacher improves, and applying a framework for evaluating new district initiatives.

371.254 M569
Merrick, Sandra
How to manage your multi-age classroom. Grades K-2

371.26 H586
Hess, Karin
A local assessment toolkit to promote deeper learning: transforming research into practice
Summary: For years, educators have turned to the Hess Cognitive Rigor Matrices (CRM) when it comes to assessment. Now for the first time, the modules are packaged into one resource to help teachers evaluate the quality and premise of their current assessment system.

371.3 H813
Horn, Michael B.; Staker, Heather
Blended: using disruptive innovation to improve schools
Summary: Readers will find a step-by-step framework upon which to build a more student-centered system, along with essential advice that provides the expertise necessary to build the next generation of K-12 learning environments. Leaders, teachers, and other stakeholders will gain valuable insight into the process of using online learning to the greatest benefit of students, while avoiding missteps and potential pitfalls.

371.46 A997
Azri, Stephanie

**Healthy mindsets for super kids: a resilience programme for children aged 7-14**

*Summary:* This imaginative resource is a complete programme, ideal for teachers, counsellors, therapists, social workers and youth workers.

371.46 B967

Burns, Donna M.

**When kids are grieving: addressing grief and loss in school**

*Summary:* This primer on loss and grief helps educators and counsellors understand and respond to the extraordinary challenges that children and adolescents may face when dealing with loss and grief. It explains how children and adolescents are affected by various forms of loss.

371.5 C982

Curwin, Richard L.; Mendler, Allen N.

**Discipline with dignity: how to build responsibility, relationships, and respect in your classroom**

*Subjects:* Problem children—Education. School discipline.

*Summary:* In this revised and updated fourth edition, this book provides in-depth guidance for implementing a proven approach to classroom management that can help students make better choices and help teachers be more effective. Emphasizing the importance of mutual respect and self-control, the authors offer specific strategies and techniques for building strong relationships with disruptive students and countering the toxic social circumstances that affect many of them, including dysfunctional families, gangs, and poverty.

371.782 R741

Roig-DeBellis, Kaitlin

**Choosing hope: how I moved forward from life’s darkest hour**

*Summary:* This book is a written witness to a tragedy that will never be forgotten. It is a gripping first hand testament to the power of good over the power of destruction. It’s an inspirational memoir by a brave young woman whose story is one of courage, heroism, faith, and resilience. It is also a celebration of all the people who make the choice to pass along their hope and positivity to young ones—parents, mentors, and especially teachers. There is no moving on, but there is always moving forward. And how we move forward is a choice.

371.8266 B628
Blackburn, Mollie V.; Clark, Caroline

*Stepping up! : teachers advocating for sexual and gender diversity in schools*

*Subjects:* Gender identity—Study and teaching. Sex differences in education. Sex role—Study and teaching.

*Summary:* This book offers inspiring suggestions for ways teachers and teacher educators can stand up and speak out to create welcoming classroom climates for LGBTQ and gender diverse students. Building from ten years of collaborative longitudinal inquiry, including interviews with parents, students, teachers, and administrators, the authors share stories from different perspectives to support teachers with concrete examples of advocacy. The authors show teachers how to 'step up' by working with students, through and beyond curriculum, and by working with families and administrators to improve school culture for LGBTQ and gender diverse students.

371.82997071 C851

Cottrell, Michael; Preston, Jane P.

*Significant leadership and ethical space : transforming educational opportunities for First Nations and Métis learners in Saskatchewan*
Saskatoon, SK: University of Saskatchewan, 2009.

371.52997071 C951

*Cross country overview of Indigenous education structure, initiatives and promising practices*

*Summary:* This document is a summary of what the survey found. Provincial school boards associations, ministries of education, as well as other organizations and key educational partners provided information in response to the survey questions. Printed from the internet.

371.9 W538

Westwood, Peter

*Teaching and learning difficulties : a cross-curricular approach*

*Subjects:* Effective teaching. Learning disabilities. Special education.

*Summary:* This book provides guidance to teaching students that encounter difficulties in a number of learning areas, including science, social studies, history, geography and environmental education. Using a cross-curricular perspective, this book explores multiple teacher-directed and student-centred instructional approaches for classroom use, highlighting the strengths, weaknesses, and specific aspects of each one. It also examines the impact of classroom interactions that influence learning, suggests strategies for reducing learning failure and enhancing students’ progress, and presents a 'big picture' perspective on teaching and learning difficulties.
371.9046 E67
Eredics, Nicole  
**Inclusion in action: practical strategies to modify your curriculum**  
*Subjects*: Curriculum change. Inclusive education—Curricula.  
*Summary*: Equally useful as a beginner’s guide to inclusion and a goldmine of practical ideas for experienced teachers, this book will help make your curriculum “possible and achievable” for every learner, with or without disabilities.

372.011 B261
Barnes, Jonathan  
**Cross-curricular learning 3-14**  
*Subjects*: Education, Elementary—Curricula.  
*Summary*: This third edition explores the key practical and theoretical issues underpinning cross-curricular teaching and learning across the early years, primary education and lower secondary school. Combining findings from research and educational theory with examples of thought-provoking teaching in schools, this textbook discusses how high quality teaching across different curriculum areas can be planned, taught, assessed and used to encourage creative and deep learning experiences.

372.19 C141
Calabrese, Immacolata; Rampone, Silvana  
**Cross-curricular resources for young learners**  
*Subjects*: English language—Study and teaching (Elementary). English language—Study and teaching (Elementary)—Foreign speakers.  
*Summary*: Many primary schools across the world are introducing Content and Language Integrated Learning (CLIL). This resource book for primary teachers provides appropriate, easy-to-use resources for teaching subjects through English.

372.35 E56
**Energy in your life [DVD]**  
Place of publication: Motion Picture Enterprises Inc., 2018.  
*Summary*: Grades K-5.

372.35 G319
Gelman, Rochel; Brenneman, Kimberly  
**Preschool pathways to science: facilitating scientific ways to thinking, talking, doing, and understanding**  
*Subjects*: Education, Preschool—Activity programs. Science—Study and teaching (Preschool).  
*Summary*: To ensure they’re meeting state early learning guidelines for science, preschool educators need fun, age-appropriate, and research-based ways to teach young children about
scientific concepts. That's just what they'll get with this hands-on guidebook. The basis for the PBS KIDS show *Sid the Science Kid*, this innovative teaching resource helps children ages 3–5 investigate their everyday world and develop the basics of scientific thinking, skills they'll apply across subject areas when they enter school.

372.35 M235  
**Make it big, make it small. Big planes and 3D printing [DVD]**  
*Summary*: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

372.35 M235  
**Make it big, make it small. Dinosaurs and monster trucks [DVD]**  
*Summary*: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

372.35 M235  
**Make it big, make it small. Glass blowing and marine railway [DVD]**  
*Summary*: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

**Make it big, make it small. iFly and gravity cake [DVD]**  
*Summary*: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

372.35 M235  
**Make it big, make it small. Make-up and rollercoasters [DVD]**  
Summary: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

372.35 M235
Make it big, make it small. Waterfalls and butterflies [DVD]
Summary: From exploring the monstrous Tyrannosaurus Rex to flying inside a wind tunnel, this series explores big experiences that make kids say “wow.” By explaining epic science and technology, kids are inspired to apply new knowledge to their own DIY projects and crafts.

372.35 S126
Sadler, Stefani; Jarboe, Tracy
Insects: a thematic cross-curricular unit
Subjects: Insects—Study and teaching (Primary). Science—Study and teaching (Primary).
Summary: This themed resource offers 81 pages of practical ideas and ready-to-use activities intended to assist primary educators in extending and integrating student learning. These activities utilize a wide variety of learning styles and approaches to meet educational standards in an exciting and innovative manner.

372.4 C951
Cross-curricular teaching in the primary school: planning and facilitating imaginative lessons
Subjects: Literacy programs. Literature—Study and teaching (Elementary). Reading (Elementary). Reading.
Summary: This book helps teachers plan a more imaginative, integrated curriculum by presenting in accessible language a rationale and framework for teaching across the subjects. This second edition has been fully updated in light of the new curriculum, and shows how cross-curricular work can contribute to deeper subject knowledge.

372.4 C971
Cummins, Sunday
Nurturing informed thinking: reading, talking, and writing across content-area sources
Subjects: Content area reading. Language arts (Elementary). Reading (Elementary).
Summary: The author draws on her work with teachers across the country in this step-by-step guide for using content-area reading to teach both content and heavy-duty reading skills (such as inferring, synthesizing, and weighting points of view) at the same time in grades 3-6. Grades 3-8.

Blauman, Leslie
The inside guide to the reading-writing classroom, grades 3-6 : strategies for extraordinary teaching

*Subjects:* Effective teaching. Language arts (Elementary).

*Summary:* Reap the benefits of the author's years as a Public Education and Business Coalition (PEBC) teacher with 31 of her best kid-tested and approved lessons that lead to great student writing. Not only are these research-based writing lessons kids' self-proclaimed favorites, they incorporate mentor texts, support the Common Core State Standards, and are research-based.

372.7044 D173
Dance, Rozlynn; Kaplan, Tessa

**Thinking together : 9 beliefs for building a mathematical community**

*Summary:* Want students really to understand and retain the math they're learning? Focus on building your classroom community first. The authors explore nine beliefs that lead to a powerful community of learners. When students are part of a classroom where they feel valued and included, they are more likely to take risks, ask questions, and grow exponentially as mathematicians.

373.1102 S264
Savage, Jonathan

**Cross-curricular teaching and learning in the secondary school**

*Summary:* Working from the key principle that there is no curriculum development without teacher development, this book argues for a new, skillful pedagogy which embeds an authentic, cross-curricular approach to teaching and learning in the work of the individual teacher. This approach respects and builds on individual subject cultures, embracing and exploring links between subject knowledge and subject pedagogies in an enriching way.

378 D613

**Dissident knowledge in higher education**

*Summary:* In this book, a number of authors delve into the effects of colonialism, neoliberalism, and audit culture on higher education. They present promising avenues of resistance and show how to shape, reinvent, and construct life for faculty in institutions that serve as both a safe harbour and enforcer.

Fullan, Michael

**Surreal change : the real life of transforming public education**

Summary: In this book, the author traces the evolution of the field through his own personal developments and contributions to it, working chronologically through "The 12 Seminal Ideas" of his career. He shows his personal and vulnerable side as well as how he came to develop breakthrough ideas. By looking at the way the field has transformed and grown over time, he draws attention to what ideas have persisted, what problems still need solving, and what faces teachers, leaders and reformers today. Deeply personal and insightful, this book contextualizes the past, present, and future of school reform to help leaders continue to bring about lasting, positive, systemic change in their organization.

Adams, Dennis; Hamm, Mary
**Imagine, inquire, and create: a STEM-inspired approach to cross-curricular teaching**
*Summary:* This resource uses STEM instruction to blur the lines between basic subject areas. Often, it's more than integrating science, mathematics, engineering, and technology. Ideas, activities, and projects can be integrated with lessons from the language arts to the Arts as well. In this book, STEM is treated as more of a philosophy than a program or a set of activities.

Brown, Patrick; Concannon, James
**Inquiry-based science activities in grades 6-12: meeting the NGSS**
*Summary:* This new book shows middle and high school science teachers how to use evidence-based inquiry to help students achieve deeper conceptual understanding. Drawing on a wealth of research, the authors demonstrate how direct, hands-on experience in the science classroom can enable your students to become more self-reliant learners. They also provide a plethora of model lessons aligned with the Next Generation Science Standards (NGSS) and offer advice on how to create your own lesson plans and activities to satisfy the demands of your curriculum. With the
resources in this book, you and your students will be able to ditch the textbook and embark upon an exciting and rewarding journey to scientific discovery.

Sloat, Teri
From one to one hundred
Subjects: Counting—Juvenile literature.
Summary: Students have plenty of opportunities to practice counting in this search-and-find picture book. Beginning with number one, readers scour the picture looking for specific objects. Each object appears in the illustration the same number of times as the featured number on the page. At 10, skip counting begins: 20, 30, 40, 50, 60, 70, 80, 90 and 100. Readers count numerous objects on each page. For example, the number 80 features 80 fish, 80 coins, 80 shells, 80 chain links and 80 underwater plants, all contributing to a colourful underwater scene for readers to explore.

design—Study and teaching (Elementary). Science—Experiments. Science—Study and teaching (Elementary).

Summary: littleBits modules: Contents: 1 power module — 1 USB power module — 1 button module — 1 slide dimmer module — 1 light sensor module — 1 temperature sensor module — 1 pulse module — 1 fork module — 2 wire modules — 1 inverter module — 1 number module — 1 long LED module — 1 RGB LED module — 2 DC motor module — 1 servo & hub module — 1 buzzer module — 1 fan module. Materials & accessories: 1 9V battery — 1 battery cable — 1 AC power adapter — 1 USB cable — 2 mounting boards — 3 mechanical arms — 1 servo mount — 4 motorMates — 5 servo accessories — 12 magnetic shoes — 12 hook & loop shoes — 2 strips of hook & loop tape — 2 wheels — 2 screwdrivers — 4 screws.

629.892 R667

Robots and robotics: an introduction to robotic technology [DVD]

Summary: This DVD provides an easy-to-understand introduction to the history and applications of robots, along with the basic principles of robot Control Theory and engineering. Robots are some of the most complicated machines ever made, but the basic principles of how they work can be quite easy to understand. Robot designs can be broken down into two different general types: Open Loop and Closed Loop. Open-loop robots repeat the same sequence of pre-programmed actions, no matter what. This type is commonly used by industrial robots, or other robots that only do one job in a very structured environment. They can be very easy to make, since they only do one thing. Closed-loop systems are much more complicated. Instead of just going through a list of pre-programmed actions, the robot looks at the world around it and changes its behavior depending on what it sees. Subjects covered in this DVD include: a brief history of robots, how robots work, types of robots, and the future of robots.

641.3 R611

Ritchie, Scot

See what we eat!: a first book of healthy eating

Summary: Five friends go on a quest to find out where food comes from and to gather ingredients to make an apple crisp. Along the way they learn about basic food groups, food transportation, and healthy eating choices.

Harvey, Jennifer

Raising white kids: bringing up children in a racially unjust America

Summary: This is a book for families, churches, educators and communities who want to equip their children to be active and able participants in a society that is becoming one of the most racially diverse in the world while remaining full of racial tensions. For white people who are committed to equity and justice, living in a nation that remains racially unjust and deeply segregated creates unique conundrums.
Floors. Residential construction framing [DVD]
Summary: This DVD looks at how subflooring forms a large platform that covers the entire width and length of a house, providing the necessary base on which to secure the walls. It explains how to frame the floor of a new home using the platform framing method. It also discusses site safety, tools, and green-building tips, and illustrates the basics of placing and anchoring sills, butting and splicing, installing beams and joists, spacing, bridging, and laying both tongue-and-groove and square-edge subflooring.

Roof. Residential construction framing [DVD]
Summary: Roofs can be constructed in two different ways: the conventional joist and rafter method, or the more common trussed roof method that uses prefabricated units. This program covers both techniques for building a roof frame, while providing safety, tool, and green-building tips as well. Topics covered include common rafter layout (ridge, birdsmouth, and tail cuts), roof overhangs, installing the rafters, and installing the roof sheathing with notes about when to consider possible regional specifications.

Making art connections: visual arts years 7 and 8
Subjects: Art—Technique—Study and teaching (Secondary).

Cross-curricular teaching and learning in the secondary school. The arts: drama, visual art, music and design
Summary: This resource argues for the development of a new, skillful pedagogy which embeds an authentic, cross-curricular approach to teaching and learning in the work of the individual teacher. Teachers are empowered to think about creative pedagogies, and pupils are able to engage in deep learning as a result.

So you want to be an architect? [DVD]
Place of publication: RG Training, 2016.
Summary: Go into the world of architecture and discover just what it's like to be an architect with young host Herschel Bronfman.

Tarabochia, Sandra
**Reframing the relational : a pedagogical ethic for cross-curricular literacy work**
Summary: This book examines how writing specialists and faculty in other disciplines communicate with each other in face-to-face conversations about teaching writing. The author argues that a pedagogical approach to faculty interactions in Writing Across the Curriculum (WAC) and Writing in the Disciplines (WID) contexts can enhance cross-disciplinary communication and collaboration and ultimately lead to more productive, sustainable initiatives.

Justice, Daniel Heath
*Why Indigenous literatures matter*
*Subjects*: American literature—History and criticism. American literature—Indian authors—History and criticism. Canadian literature—History and criticism. Canadian literature—Native authors—History and criticism. Indians in literature. Native Peoples in literature.
*Summary*: This provocative volume challenges readers to consider critically, rethinking their assumptions about Indigenous literature, history, and politics while never forgetting the emotional connections of our shared humanity and the power of story to effect personal and social change. Written with a generalist reader firmly in mind, but addressing issues of interest to specialists in the field, this book welcomes new audiences to Indigenous literary studies while offering more seasoned readers a renewed appreciation for these transformative literary traditions.

813.54 T662
Tompert, Ann
*Just a little bit*
*Summary*: When an elephant and a mouse try to play on a seesaw, they need help from a vast number of animal friends to balance the scales. This book will provide children the opportunity to explore the concept of balance.

813.6 B782
Bouvier, Victoria
*Nipin and the rocks*
*Summary*: Nipin and other children listen to Mosom, an Elder in the community, tell them stories from their ancestors using rocks that were passed down to Mosom over the generations. Nipin admires the rocks and decides to steal them for himself. The longer he keeps the stolen rocks, the more their beautiful appearance deteriorates. Nipin returns the rocks and learns from Mosom that the rocks represent the beauty of the stories that are meant to be shared by all.

Parr, Todd
The goodbye book
Summary: In this book illustrations and brief text relate how a person might feel when they lose someone they love.

813.6 R883
Rowland, Joanna
The memory box: a book about grief
Summary: From the perspective of a young child, the author artfully describes what it is like to remember and grieve a loved one who has died. The child in the story creates a memory box to keep mementos and written memories of the loved one, to help in the grieving process. Heartfelt and comforting, this book will help children and adults talk about this very difficult topic together. The unique point of view allows the reader to imagine the loss of anyone they have loved: a friend, family member, or even a pet. A parent guide in the back includes information on helping children manage the complex and difficult emotions they feel when they lose someone they love, as well as suggestions on how to create their own memory box.

813.6 S126
Sadler, Judy Ann
Nothing happens in this book
Summary: Upon opening this book there's not a lot to see. But as more and more pictures of seemingly random things are revealed and hints given by the guide, children will become curious and work to put the pieces together to find the story.
813.6 S531
Sharif, Medeia
**Bestest. Ramadan. Ever.**
*Summary*: Not allowed to eat from sunrise to sunset during Ramadan and forbidden to date, fifteen-year-old Almira finds that temptation comes in many forms during the Muslim holy month, as she longs to feel like a typical American girl.

813.6 Z64
Zia, Farhana
**The garden of my Imaan**
*Summary*: The arrival of new student Marwa, a fellow sixth-grader who is a strict Muslim, helps Aliya come to terms with her own lukewarm practice of the faith and her embarrassment over others' reactions to their beliefs.

819.116 C191
Campbell, Tenille K.
**IndianLovePoems : poems**
*Subjects*: Love poetry, Canadian (English). Native women—Canada—Poetry.
*Summary*: Covering Indigenous adventures from Wapole Island to Northern Saskatchewan to the West Coast, this book is a poetry collection that humorously delves into the truths of love and lust within Indigenous communities, leading to reflection on the complexities of sex, race, culture, and intention within relationships.

822.33 R763
**Romeo and Juliet [DVD]**

*Summary*: This DVD features *Romeo and Juliet*, the classic tale, told with the setting moved from its Elizabethan origins to the backdrop of modern day America.

823.97 G287
Gaynor, Kate
**A birthday for Ben**
Summary: It's Ben's 7th birthday, but he really doesn't want a birthday party. When his friends surprise him, he then learns just how easy it is for everyone to join in the fun.

833.92 A138
Abedi, Isabel
Farewell, Grandpa Elephant: what happens when a loved one dies?
Summary: Grandpa Elephant knows that it is his time to go to the elephant graveyard, and so he begins his farewell to his grandchildren. The young elephants are confused, but they soon realize that although there is sadness, the mystery of death holds countless possibilities. Maybe Grandpa Elephant will go to heaven and walk on clouds, or maybe he will come back to earth in a new form. Even he does not know. Though the little elephants will never see Grandpa Elephant again, they learn that he will live on in their thoughts and dreams. Helping children deal with the loss of a loved one can be difficult, but this book can make it easier to explain what is happening in terms that they will understand. Through the elephants' eyes, children learn that even though they will never see a beloved face again, there is the certainty of preservation through their memory.

971.00497 D612
Displaced: Indigenous youth and the child welfare system [DVD]
Edmonton, Alta: KingCrip Productions, 2016.
Summary: This film features the voices of Indigenous youth as they reflect on their prior involvement with child welfare and share their multiple strategies of resistance to assimilation and state control.

Great Lakes on the edge [DVD]
Summary: All of the Great Lakes are experiencing environmental stresses with Lake Ontario, downstream of the other four lakes, most impacted. This video deals with one major issue and its consequences, that of excess nutrient inputs from urban and rural areas.

973.0497 F855
Freeman, Victoria
Distant relations: how my ancestors colonized North America
Summary: In this book, the author traces her European ancestors’ involvement in settling lands occupied by Indigenous Peoples in what would become New England and Ontario. It is a story of land fraud, broken treaties, displacement, massacre, and warfare, yet Freeman portrays her forebears with compassion and understanding. The result is a meticulously researched history, filled with photos and maps and a passionate discussion of how whites and American Indians have worked with, fought, courted, befriended — and, too often, killed — one another over four centuries. Among other memorable characters, readers meet Thomas Stanton, a fur trader who participated in a genocidal war against the Pequots, and later became one of the most trusted intermediaries between the colonists and the Native Americans.
