

March 13, 2020

The emergence of COVID-19 in Saskatchewan is causing concern and raising many questions among our members. The situation is fluid, and we understand that at times it may seem unclear what actions you should take.

The best source of information on COVID-19, including best practices to prevent infection and guidelines for self-isolation and social distancing, is the [Government of Saskatchewan](#) website. We encourage you to refer to this site often, as information is changing quickly.

On March 13, 2020, the Government of Saskatchewan [implemented additional measures](#) to limit the spread of Covid-19. In light of this, you can anticipate more information from your divisions. We will continue to work closely with Ministry of Education officials and provide updates as the situation evolves.

[Public Health Canada](#) also has a number of awareness resources available that you may find useful.
